Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner telephoned Mr. Brady to discuss certain amendments which could place the claims in condition for allowance. Namely the language of claims 81 and 82 needed to be changed from "comprising" in a markush group to "selected from the group consisting of". The concentration rangesfor polar solvent in claims 28, 29 and 55 did not correspond exactly to the concentration ranges disclosed in the specification. Mr. Brady approved the amendments, which are stated in an Examiner's Amendment.
